"FOOLKILLER" MISSING.

Believed to Have Been Smothered or Frozen Crossing Lake Michigan.

CHICAGO, Nov. 20.-Peter Nissen is believed to have either smothered or frozen to death in his rolling balloon, "Foolkiller," in which he started for a

trip across the lake yesterday.

The opinion that Nissen was lost became general this afternoon, when it was found that after twenty-four hours there was still absolutely no word from the inventor, who some years ago shot the whirlpool rapids of Niagara falls in a barrel. He has not been sighted by any vessel.

Possibility of Nissen's smothering to

death was considered more definitely, when it was learned that his only supply of air was that pumped into the "Fooikiller" before the craft was launched. It was said by Nissen's brothers, however, that the navigator had computed his air and figured that it would last him.

At the weather bureau it was said that even if Nissen reached the shore that even it Nissen reached the shore he would suffer from the cold, as there was a snowstorm blowing near the Michigan shore, and that as his boat had no means of heating and permit-ting of no air, the navigator would suffer severely. There is a great deal of sickness throughout the county. It is believed to be the to the vesther. There has no moisture fallen here for months, and with warm days and dry, cold nights, this is thought to favor disease. In Monroe there are many cases of pure monta, especially among children, and there have been two deaths within the past wock. In Annabella there is an epidemic of cough among the children, and some of them have such violent attacks of coughing as to bleed at the nose. an hour to a sixty-mile rate.
